SECTION III: RISK FACTORS

RISK FACTORS

Any Investment in equity shares involves a high degree of risk. Investors should carefully consider all the information in this Draft Letter of Offer, including the risks and uncertainties described below, before making an investment in our Rights Equity Shares. The risks described below are not the only risks relevant to our Company's business, operations or our Rights Equity Shares, but also to the industry and segments in which we operate or propose to operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may also impair our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our equity shares could decline, and investors may lose all or part of their investment. To obtain a complete understanding of our Company, prospective investors should read this section in conjunction with **"Financial Information"** beginning on page 65 and other information contained in this Draft Letter of Offer. Unless specified in the relevant risk factor below, we are not in a position to quantify the financial implication of any of the risks mentioned below. Further, some events may be material collectively rather than individually.

We have described the risks and uncertainties that our management believes are material but the risks set out in this Draft Letter of Offer may not be exhaustive and additional risks and uncertainties not presently known to us, or which we currently deem to be immaterial, may arise or may become material in the future. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue, including the merits and the risks involved. Prospective investors should consult their tax, financial and legal advisors about the particular consequences to you of an investment in the Issue.

This Draft Letter of Offer also contains forward-looking statements which refer to future events that may involve known and unknown risks, uncertainties and other factors, many of which may be beyond our control, and which may cause the actual results to be materially different from those expressed or implied by the forward-looking statements. For further details, see **"Forward Looking Statements"** on page 13.

Unless otherwise stated, the financial information used in this section is derived from our Company's audited financial statements as of and for the year ended March 31, 2022, 2021 and 2020.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some risks may not be material individually but may be material when considered collectively.
2. Some risks may have material impact qualitatively instead of quantitatively.
3. Some risks may not be material at present but may have a material impact in the future.

2. Ongoing enquiry proceedings by Goods and Service Tax department against the proprietary concern of Mr. Jugal Kishore Bhagat namely M/s. Dynamic Services and M/s. Pragati General Order Supplier:

There was an investigation/enquiry/Audit pertaining to Service Tax dues for the period 1st April 2015 to 1st June 2017 of the above-mentioned firm, which culminated into a demand of Rs.730.21 Lacs, and was settled under the Sabka Vishwas (Legacy Dispute Resolution) Scheme, 2019 by making a payment of Rs.365.11 Lacs to DGGI-North Kolkata.

Further, enquiry/investigation pertaining to GST liability assessment for the FY 2017-18, 2018-19, 2019-20 and 2020-21 are ongoing for the same firm mentioned above, with Bureau of Investigation (South Bengal) and DGGI-East Kolkata Unit. Both the agency as afore-stated collected relevant documents as was available with the firm at the time of the respective Survey. The Firm requested the Bureau of Investigation (South Bengal) to consolidate all the enquiries with one department i.e., DGGI-East Kolkata Unit instead of two separate units for the better compliance purpose. The matter is pending with DGGI-East Kolkata Unit as well of Bureau of Investigation (South Bengal). Total amount of dues is yet to be ascertained as the outcome of the enquiry proceedings is pending. Any adverse outcome of the enquiry proceedings may affect the financial position of the Company/Group.

3. Pending Income Tax proceedings in the name of the Promoters:

There are pending Income Tax proceeding in the name of Mr. Jugal Kishore Bhagat under section 143(2) for complete scrutiny of books of accounts for the AY 2020-21. The matter is under proceeding. Any negative outcome involving Income Tax demands, penalties and Interest will have a material impact on the financials of the Promoter and may also in-turn adversely affect the financials of our Company. Any adverse proceedings may impact our Companies financials.

4. One of our Promoters proprietorship firm, M/s. Dynamic Services has been debarred by West Central Railway

West Central Railway has terminated a contract worth Rs. 1473.32 lakhs of M/s. Dynamic Services vide their letter dated 15/11/2019 and reconfirmed vide their letter dated 16/03/2020, wherein it has been alleged that Balance Sheet and P/L Account filed by the firm during the tendering process was incorrect and untrue, when compared with the documents provided/filed with the Income Tax Department. West Central Railway also forfeited the performance guarantee amounting to Rs. 147.33 Lakhs and debarred the firm from participating in any bid for executing any work being tendered by West Central Railway for a period as per extant rules and guideline.

5. Our Company has not entered into any long-term contracts with our customers and we typically operate on the basis of orders received on hand. Inability to maintain regular order flow would adversely impact our revenues and profitability

We are mainly engaged in the business of Logistics involving land-based transportation services and have not entered into any fixed contracts with our customers and we cater to them on an order-by-order basis. As a result, our customers can terminate their relationships with us without any notice and, without consequence, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our services. Our Company's customers have no obligation to place order with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the level of service that our Company provides, consistency, fluctuation in demand for our Company's services and customer's inventory management.

Although we place a strong emphasis on quality, pricing and timely delivery of our services, personal interaction by the top management with the customers, etc., in the absence of contracts, any sudden change in the demand pattern of our customers could adversely affect the business and the profitability of our Company.

6. We do not maintain long-term contracts with our third-party suppliers, and our business may be adversely affected by a shortfall in supply, or increase in price of materials.

Apart from the logistic business, our company is also engaged into the business of infrastructural and development activities and trading activities (mainly into building materials like cement etc.). Substantially all our materials are purchased from third parties i.e. third-party suppliers locally. For further details, see section **"Our Business"** on page 49 of this Draft Letter of Offer. We do not have any long-term supply contracts with any of our specific suppliers with respect to our material requirements and typically place orders with them in advance of our anticipated requirements. We procure different materials for our aforesaid works and the availability of these products are subject to many risks, including, economic conditions, adverse weather conditions, adverse ground conditions and natural and other disasters. Furthermore, materials are subject to price volatility caused by factors, including market fluctuations, the quality and availability of supply, currency fluctuations, consumer demand and changes in governmental infrastructural programs. Our material's price increases result in corresponding increases in our material supply and infrastructural development costs. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability

on our part to procure the materials from alternate suppliers in a timely fashion, or on terms acceptable us, may adversely affect our operations.

We rely on the adequate and timely availability of key materials. Any supply chain disruptions may impact our material sourcing, which in turn may impact our ability to fulfil the demand of the customers. Any significant change in the cost structure or disruption in supply may affect the pricing and supply of products. If we are not able to offset increased material costs, or if unit volume sales are significantly reduced, it could have an adverse impact on our profitability. This may adversely affect our business and financial performance.

7. *Major portion of our revenue is concentrated from limited number of customers. Any failure to retain one or more of our customers or any disruption of sale of our product will have an adverse effect on our financial performance and results of operations.*

During the Financial Year 2021-2022 revenue from top 10 customers of the company stood at approximately 94.40% whereas for the same period the revenue from the top 5 customer stood at approximately 89.08% of our total revenue. We cannot assure you that our reliance on the select group of customers will decrease over time and we may continue to remain dependent upon them for a substantial portion of our revenues. In such an event, our failure to retain them may have an adverse effect on our financial performance and our results of operations.

8. *Dependence on third-party vendors could have an adverse effect on our business financial condition and results of operations.*

Our ability to service our customers depends on the availability and costs of vehicles used for transport, equipment and adequate work force of independent contractors for operations. We use vehicles owned by third parties on per trip basis including vehicles registered in the name of our Promoter. Further, we often engage independent contractors for our skilled and unskilled labour needs and, in the event that such contractors are not available, this may have a material and adverse effect on our operations. We cannot assure you that we will be able to obtain access to preferred third-party vendors for our vehicles or independent contractors, or at attractive rates or that these vendors will have adequate available capacity to meet our needs or be able to meet our requirements in a timely manner. Further, if we are unable to procure the services of third-party vendors capable of sufficiently scaling up operations in response to increased demand from our customers, we may be compelled to make capital expenditures or seek out costlier or lower quality third-party vendors to meet our needs. Any inability to secure vehicles or independent contractors or on attractive terms could have an adverse effect on our business, financial condition and results of operations.

9. *Our business is dependent on the road network in India and our ability to utilise the hired vehicles in an uninterrupted manner. Any disruptions or delays in this regard could adversely affect us and lead to a loss of reputation and/or profitability.*

The transportation and delivery services we provide are dependent on the road network in India. There are various factors which affect road transport such as political unrest, bad weather conditions, natural calamities, road construction, road quality, regional disturbances, fatigue or exhaustion of drivers, improper conduct of the drivers, accidents or mishaps and third-party negligence. Even though we undertake various measures to avoid or mitigate such factors to the extent possible, some of these could cause extensive damage and affect our operations. Also, any such interruption or disruptions could cause delays in the delivery of goods to their destination and/or also cause damage to transported cargo. We may be held liable to pay compensation for losses incurred by our customers in this regard, and/or losses or injuries sustained by other third parties. Further, such delays and/or damage may cause a loss of reputation, which, over a period of time could lead to a decline in business. In the event that goods to be delivered have a short shelf life, such as perishable goods, any delay in the delivery of such cargo could also expose us to additional losses and claims. Although, some of these risks are beyond our control, we may still be liable for the condition of such cargo and their timely delivery and any disruptions or delays could adversely affect us and lead to a loss of reputation and profitability. Under the terms of certain of our agreements with our customers, we are required to facilitate customers' insurance claims for losses on products in transit and to compensate such customers if we fail to do so. In addition, any prolonged or significant downtime of the transportation vehicles or related equipment caused by unforeseen circumstances may cause major disruptions to our operations. In the event we are affected by such prolonged and significant downtime of the vehicles or equipment, our operations and financial performance may be materially and adversely affected.

10. *We may face competition from a number of international and domestic third-party logistics companies, which may adversely affect our market position and business.*

While the logistics industry in India is generally fragmented, we may face competition from a number of international and domestic third-party logistics service providers, especially as the trend toward larger-scale logistics providers in India continues. Some of our competitors may have significantly greater financial and marketing resources and operate larger networks than we do. In the regions of India in which we may operate, we may face competition from certain regional logistics services providers and the unorganized sector, some of which have market presence in their respective areas of operation. We may also face competition from new entrants into the logistics service industry. If we cannot maintain, or gain, sufficient market presence or are unable to differentiate ourselves from our competitors, we may not

be able to compete effectively. Further, if we cannot maintain cost competitiveness within the third-party logistics industry, including, in the event we choose to expand and incur excessive fixed costs or if we experience a disproportionate increase in costs in comparison to our competitors, our customers could choose to service their third-party logistics needs with our competitors rather than us. Our ability to compete effectively may be constrained by the following factors:

- Lack of own Vehicles and dependence on third party Transport providers
- loss of key members of our management and experienced employees (in particular those from our sales force who have established relationships with our key customers and those who have deep sector expertise that we leverage to provide effective solutions for our customers) to our competitors;
- deployment of more advanced technology platforms by our competitors;
- alliances entered into by our competitors with other logistics services providers, increasing their distribution network or resources and technologies that may not be available to us;
- lower cost base of domestic and regional competitors than ours, increasing their cost competitiveness;
- the deployment by our competitors of a more robust fleet of transportation vehicles;
- difficulties entering new sectors that may be dominated by competitors;
- existing or new competitors pricing their services with significant discounts.

In addition, increased competition may reduce the growth of our customer base and result in higher selling and promotional expenses. If we are unable to compete effectively with our competitors, we may experience a decline in our revenues and profitability and our business, financial condition and results of operations could be materially and adversely affected.

11. *Delays or defaults in payment by our customers could affect our cash flows and may adversely affect our financial condition and operations.*

We extend credit to certain of our customers for long periods of time and there is no assurance that we will be able to recover outstanding amounts in part, full or at all. We have and may continue to have high levels of outstanding receivables. Our average outstanding receivable days are 3 to 4 months in the past three financial years. Hence, if delays or defaults in client payments continue or increase in proportion to our total revenues, it could negatively affect our cash flows and consequently affect our financial condition and operations. Further, while we may take appropriate action in the event of a non-payment of receivables, there can be no assurance that we will be able to successfully recover outstanding amounts owed to us in part or full, which in turn could affect our cash flows and may adversely affect our financial condition and operations.

12. *We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations. We may also be unable to obtain future financing to fund our operations, expected capital expenditure and working capital requirements on favorable terms, or at all.*

As on the date of the Draft Letter of Offer, we have outstanding outside debt in our books of accounts. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

If any of these risks were to materialise, our business and results of operations may be adversely affected. Our business requires funding for capital expenditure and working capital requirements. The actual amount and timing of future capital expenditure may depend on several factors, among others, new opportunities, regulatory approvals, regulatory changes, economic conditions, technological changes and market developments in our industry. Our sources of additional funding, if required, to meet our capital expenditure may include the incurrence of debt or the issue of equity or debt securities or a combination of both. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. In case there is insufficient cash flow to meet our working capital requirement or we are unable to arrange the same from other sources or there is delay in disbursement of arranged funds, or there is any increase in interest rate on our borrowings, it may adversely affect our operations and profitability. These factors may result in an increased amount of short-term borrowings.

13. *The trend toward outsourcing of supply chain management activities, throughout India or within specific sectors, may change, thereby reducing demand for our services.*

Our growth strategy is based on the assumption that the trend of outsourcing of supply chain management and other logistics services will continue, or rise, in the future to a certain extent. Third-party logistics service providers, such as us, are generally able to conduct supply chain management and other logistics services more efficiently than comparable in-house operations run by customers primarily as a result of expertise, implementation and adoption of technology, efficient management of operations and lower and more flexible employee cost structures. However, many factors could cause a reversal of this trend. For example, our customers may consider the risks in relying on third-party service providers, or they may begin to define these activities as within their own core competencies and decide to perform supply chain and other logistics operations themselves or they may select transport providers who have their own fleet instead of logistic service providers like us who don't own any vehicle but source it through other transport providers, which could have a material and adverse effect on our business.

Furthermore, when a customer ceases to outsource portions of its logistics operations to us, the customer may find it less compelling or unattractive to engage us for remaining logistics services, as a result of which some or all of our business with such customer may be adversely affected.

14. *Our Registered Office from where we operate are not owned by us.*

Our Registered Office premise is situated at 375, Dakshindari Road, Kolkata – 700 048, West Bengal, India, which is owned by promoters of our company. We have entered into a Rent Agreement with our promoter with effect from 1st April, 2021 for a period of 36 months. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favorable terms in future. For further details, see section “**Our Business**” on page 49 of this Draft Letter of Offer. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favorable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

15. *Our Company has not made any application for registration of trademark yet. We are taking steps to apply for the registration of the Trademark in due course. We are unable to assure you that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.*

We have not made any application with ‘The Registrar of Trade Marks, Trade Marks Registry’ for registration of trademark of our logo “”. We are taking steps to apply for the registration of the Trademark in the due course as the registration for the said trademark in our name is important to retain our brand equity. If our application for registration is not accepted or if any oppositions filed against our trademark application are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our future application would be granted registration or will not be challenged or if granted registration, will not be invalidated or circumvented or will offer us any meaningful protection. We are unable to assure that the future viability or value of any of our intellectual property or that the steps to be taken by us to protect the proprietary rights of our Company will be adequate.

16. *The COVID-19 pandemic and resulting deterioration of general economic conditions has impacted our business and results of operations in the past and the extent to which it will impact our future business and results of operations will depend on future developments, which are difficult to predict.*

Since first being reported in December 2019, the outbreak of COVID-19 has spread globally. The World Health Organization declared the novel coronavirus disease (“COVID-19”) outbreak a Public Health Emergency of International Concern on January 30, 2020, and a pandemic on March 11, 2020. The rapid and diffused spread of COVID-19 and global health concerns relating to this pandemic have had a severe negative impact on, among other things, financial markets, liquidity, economic conditions and trade and could continue to do so or could worsen for an unknown period of time, that could in turn have a material adverse impact on our business, cash flows, results of operations and financial condition, including liquidity and growth. The extent to which the COVID-19 outbreak impacts our business, cash flows, results of operations and financial condition will depend on future developments, including on the duration and severity of the pandemic, the nature and scope of government actions to contain it, and the potential impact on global and national economic conditions, including inflation, interest rates, availability of capital markets, consumer spending rates, energy availability and costs (including fuel surcharges), which are highly uncertain and cannot be predicted. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and are likely to be severe.

In addition, while the Government of India in coordination with the state governments have started the bulk immunization process or vaccination drive since January 16, 2021, achieving a complete vaccination scale may take significant amount of time. There is also no assurance that the vaccines that are developed will be fully effective and/ or may not have side effects. On March 14, 2020, India declared COVID-19 as a ‘notified disaster’ and imposed a nationwide lockdown announced on March 24, 2020. Subsequently, progressive relaxations have been granted for movement of goods and people and cautious reopening of businesses and offices. Thus, our business was under lock

down during the nationwide lock down due to the spread of COVID 19 Pandemic from March 25, 2020 to May 02, 2020. It was also shut down during the month of June 2020 due to widespread COVID – 19 pandemic. Subsequently, our business was operating subject to certain social distancing and additional safety measures, such as, regular temperature checks, regular sanitization, and compulsory use of masks and hand sanitization. While we have not been able to determine any material impact on our operations and results on account of COVID-19, in the previous Fiscal, our Company has witnessed a lower quantum of revenue compared to similar periods in previous years. In addition, throughout March and April 2021, due to an increase in the number of daily COVID-19 cases, several state governments in India re-imposed lockdowns, curfews and other restrictions to curb the spread of the virus. As a result of the detection of new strains and subsequent waves of COVID-19 infections in several states in India as well as throughout various parts of the world, we may be subject to further reinstatements of lockdown protocols or other restrictions, which may adversely affect our business operations. We continue to closely monitor the impact that COVID-19 may have on our business and results of operations.

17. *Our revenues are highly dependent on clients located in India. Any decline in the economic health of India could adversely affect our business, financial condition and results of operations.*

We have derived a substantial portion of our revenue from services offered to clients based in India only. If the economic conditions of India become volatile or uncertain or the conditions in the financial market were to deteriorate, especially in recent times due to the COVID-19 pandemic, or if there are any changes in laws applicable to our services and operations or if any restrictive conditions are imposed on us or our business, the pricing of our services may become less favorable for us. Further, our clients located in these geographies may reduce or postpone their spending significantly which would adversely affect our operations and financial conditions. Any reduction in spending on third party logistic services may lower the demand for our services and negatively affect our revenues and profitability.

18. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.*

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a vast experience in the field of logistics and infrastructure through their erstwhile Proprietorship firms engaged in similar business. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company's current customer and supplier relations. We believe that our relation with our Promoters, who have rich experience in the industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other firms / ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our directors for executing their day-to-day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

In addition, we depend on our Directors / Promoters in availing certain bank loans and for the extension of unsecured loans and advances from time to time. We rely on our Directors and Promoters, in relation to our bank loans for which they have granted certain security and personal guarantees. We cannot assure you that any future financing we obtain without guarantees from our Directors / Promoters or from unrelated third-parties will be on terms which are equal to or more favourable than the terms of our past financings.

19. *Our Company has entered into certain related party transactions and may continue to do so in the future.*

Our Company has entered into related party transactions with our Promoters, Directors, Group Entities and their relatives. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to ***"Related Party Transactions"*** under section titled ***"Financial Information"*** on page no. 82 of this Draft Letter of Offer.

20. *Our Company has availed unsecured loan from our Directors / Promoters and Promoter Group which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.*

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at

higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section titled **“Financial Information”** beginning on page no. **65** of this Draft Letter of Offer. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

21. *We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company’s operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapter titled and **“Government Approvals”** at page no. **98** this Draft Letter of Offer.

22. *If we are unable to manage our growth effectively or if our estimates or assumptions used in developing our strategic plan are inaccurate or we are unable to execute our strategic plan effectively, our business and prospects may be materially and adversely affected.*

Our revenue and our business operations have grown in recent years. Although we plan to continue to expand our scale of operations, we may not be able to sustain these rates of growth in future periods due to a number of factors, including, among others, our execution capability, our ability to retain, maintain & enter into new supplier MOUs / agreements, our ability to maintain customer satisfaction, our ability to mobilise sufficient working capital, macroeconomic factors beyond our control such as decline in global economic conditions, competition with other players in the organized and unorganized segments, the greater difficulty of growing at sustained rates from a larger revenue base, our inability to control our expenses and the availability of resources for our growth. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business operations.

Our development and expansion strategies will require substantial managerial efforts and skills and the incurrence of additional expenditures may subject us to new or increased risks. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations, and any failure to do so may limit future growth and have an adverse effect on our business. Further, our strategy to improve our debt – equity ratio may not materialise in the manner we intend to, and we may be required to obtain additional debt to meet immediate capital requirements, resulting in unfavourable ratios.

Also, the fund requirement and deployment for our strategies are based purely on management estimates and assumptions considering the current market scenario and are subject to revision in the light of changes in external circumstances or costs. If we are unsuccessful in executing our strategic plan, or if the underlying estimates or assumptions used to develop our strategic plan are materially inaccurate, our business and financial condition would have an adverse impact.

23. *In addition to normal remuneration, other benefits and reimbursement of expenses our Directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoters) and Key Management Personnel may be interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration, incentives or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Promoters & our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Promoters and Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Promoters and Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects. For further details of our transactions or interests of our promoters / promoter group, please refer the chapters titled **“Our Promoters”**, **“Related Party Transactions”** and **“Financial Information”** beginning on page nos. **63**, **82** and **65** respectively, of this Draft Letter of Offer.

24. *Our Company's insurance coverage may not be adequate to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work.*

We maintain insurance which we believe is typical in our industry in India and for amounts which we believe to be commercially appropriate for risks. However, such insurance may not be adequate to cover all our losses or liabilities that may arise from our business. Our insurance policies contain exclusions and or all limitations on coverage, as a result of which, we may not be able to successfully assert our claims for any liability or loss under the said insurance policies. Additionally, there may be various other risks and losses, specially arising out of our business agreements, for which we are not insured because such risks are either uninsurable or not insurable on commercially acceptable terms. Furthermore, there can be no assurance that in the future we will be able to maintain insurance of the types or at levels which we deem necessary or adequate or at premiums which we deem to be commercially acceptable. The occurrence of an event for which we are not insured, where the loss is in excess of insured limits or where we are unable to successfully assert insurance claims for losses, could result in unforeseen liabilities and losses. Further, despite such unforeseen losses we may remain obligated for any future financial indebtedness or other obligations related to our business. Any such unforeseen losses or liabilities could result in an adverse effect on our business operations, financial conditions and results of operations.

25. *We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.*

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

26. *We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director's and officer's insurance policy or any keyman insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

27. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.*

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

28. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

29. *Industry information included in this Draft Letter of Offer has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Draft Letter of Offer. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of

the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Letter of Offer.

30. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 64 of this Draft Letter of Offer.

31. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.*

Any future equity issuance by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

32. *Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.*

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

RISKS RELATING TO RIGHTS ISSUE

1. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. ***For details, see “Terms of the Issue” on page 104.*** In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

2. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of Investor’s shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Rights Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Rights Issue with respect to such Rights Entitlements.

3. *There is no guarantee that the Rights Equity Shares issued pursuant to this Rights Issue will be listed on the Stock Exchange in a timely manner.*

In accordance with Indian law and regulations and the requirements of the Stock Exchange, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Rights Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuing of Rights Equity Shares to be submitted. Accordingly, there could be a failure or delay in listing the Rights Equity Shares on the Stock Exchange. If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Closing Date. In any such event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, see “*Issue Information*” beginning on page 104 of this Draft Letter of Offer.

4. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Right Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are not credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation (the last day for which is [●]), such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 104 of this Draft Letter of Offer.

5. *The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.*

The Equity Shares will be credited to a demat suspense account to be opened by our Company, in case of Allotment in respect of resident Eligible Equity Shareholders holding Equity Shares in physical form and who have not provided the details of their demat account to the Registrar or our Company at least two Working Days prior to the Issue Closing Date. Such Eligible Equity Shareholders are required to send, amongst others, details of their demat accounts to our Company or the Registrar to enable our Company to transfer, after verification of the details of such demat account by the Registrar, the Equity Shares from the demat suspense account to the demat accounts of such Eligible Equity Shareholders. Unless and until such Eligible Equity Shareholders provide details of their demat account and the Equity Shares are transferred from demat suspense account to such demat accounts thereafter, they will have no voting rights in respect of Equity Shares. For details, see “*Terms of the Issue*” on page 104 of this Draft Letter of Offer.

6. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020 and May 6, 2020, read with SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated

January 19, 2021 and SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see ***“Terms of the Issue”*** on page **104** of this Draft Letter of Offer. In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

7. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant’s decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

8. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

9. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association and Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, Director’s fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a corporate entity in another jurisdiction. Shareholders’ rights under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as one of our shareholders than as a shareholder of a bank or corporate entity in another jurisdiction. In accordance with the provisions of the Companies Act, the voting rights of an equity shareholder in a company shall be in proportion to the share of a person in the paid-up equity share capital of that company.

10. *No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchange, the trading of Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

EXTERNAL RISK FACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

4. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

5. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

6. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non- residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/

tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

7. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

8. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

9. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

The current Covid-19 pandemic had brought the world to a standstill affecting all sectors and the livelihood of many are at stake including the Indian economy. However, our Country is achieving normalcy by various measures taken by the Government. The pandemic is still to be controlled and any major outbreak will seriously impact our business. Further, our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

10. *Terrorist attacks, civil unrest and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

1. *Unusual or infrequent events or transactions*

Except as described in this draft letter of offer, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent.

2. *Significant economic changes that materially affected or are likely to affect income from continuing operations.*

There are no significant economic changes that may materially affect or likely to affect income from continuing operations except the Covid-19 pandemic which is still to be controlled. However, Government policies governing the sector in which we operate as well as the overall growth of the Indian economy has a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations. To our knowledge, except as we have described in the Draft Letter of Offer, there are no known factors which we expect to bring about significant economic changes.

3. *Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.*

Apart from the risks as disclosed under Section “**Risk Factors**” beginning on page **17** in the draft letter of offer, in our opinion there are no other known trends or uncertainties that have had or are expected to have a material adverse impact on revenue or income from continuing operations.

4. *Expected Future changes in relationship between costs and revenues*

Our Company’s future costs and revenues will be determined by demand/supply situation, Government Policies and Taxation and Currency fluctuations.

5. *Extent to which material increases in net sales or revenue are due to increased sales volume, introduction of new products or increased sales prices*

Changes in revenue in the last financial years are as explained in the part “Comparison of the financial performance of above.

6. *Total turnover of each major industry segment in which our Company operates*

Presently for the Financial year 2021-22 approx 60% is from infrastructural activities, approx 32% is from logistic activities and approx 8% is from trading activities, mainly into building materials like cement, etc.

7. *Status of any publicly announced New Products or Business Segment*

Our Company has not announced any new product other than disclosed in this draft letter of offer.

8. *Seasonality of business*

Currently, our company’s business is not seasonable in nature.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “automatic route”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment.
